Plant Service Department

The motto of this department is that of the Prince of Wales "Ich Dien" (I serve). We aim to give nobility of service to both grower and consumer, serving both in such noble ways as to be a boon and delight to each.

We guarantee all plants sent out by us to be true to name, of first-class quality and in good healthy growing condition when delivered to transportation company and will adjust any difficulty to the entire satisfaction of the customer, should such occur through any fault on our part.

Orders from parties who do not have an account with us should be accompanied by a remittance or a satisfactory reference. We prefer not to send perishable goods C. O. D.

All prices subject to market changes and if unsold.

CARNATIONS

ROOTED CUTTINGS

The following list embraces what we consider the most promising of the new varieties to be sent out this season and we urge our customers to try out those

that appeal to them, as there is no proof like a test for each locality—the variety not always behaving the same everywhere. It is poor policy to wait until your neighbor does it and reaps the extra profits a year ahead of you.

Nebraska

Red seedling (Scarlet Glow x Victory).

Growth strong, makes a fine plant in the field, larger than Enchantress, but very much of the same habit, lifts very easily and starts quickly after benching. Throws long stems from the first, a very early and continuous bloomer, holds its color in hot weather; absolutely does not split, will out-bloom Enchantress.

\$12.00 per 100, \$100.00 per 1000.

Laura Weber

Color between Enchantress and Gloriosa.

\$12.00 per 100, \$100.00 per 1000.

Morning Glow

Queen x Winona, blush pink, small bloom, very prolific.

Early and continuous bloomer. Succeeds with ordinary culture, roots easily and makes plenty of cuttings, produces flowers of an even grade and practically never splits.

\$8.00 per 100, \$75.00 per 1000.

Mrs. Alice Coombs

It is a marvelously free bloomer, bound to be profitable, very stiff stemmed. A fine strong grower, remarkably so; a delicious shade of pink like Gloriosa.

\$12.00 per 100, \$100.00 per 1000.

Aviator

The color is an intense bright scarlet, not showing any crimson; the petals standing out wide intensifies the scarlet. The stem is thin and wiry, but stiff. The flowers are a good medium size, average about three inches. The calyx is practically non-bursting. In regard to habit and productiveness, this being a cross between a red sport of Maceo and a red seedling, it has a thin upright growth with no grass, every break is a flowering shoot and it is one of the most prolific carnations that has ever been offered. We cannot fully describe its massive heavy crop of flowers and buds at all times of the season as it really must be seen to be appreciated.

\$12.00 per 100, \$100.00 per 1000.

Belle Washburn

Fine large Red. Full description in next issue.

\$12.00 per 100, \$100.00 per 1000.

Miss Theo

Miss Theo propagates easily, grows rapidly, developing into a large and well-balanced plant, producing persistently and enormously throughout the whole season. The color is a true rose pink, of good form, well-formed calyx which very seldom splits. The flowers are on wiry graceful stems of good length, held erect at all times.

Rooted cuttings from sand \$12.00 per 100, \$100.00 per 1000.
